

**PRESS RELEASE**

**Milan, November 13, 2012**

**The Board of Directors approves the results of the third quarter 2012**

**Consolidated revenues of the quarter equal to €32.7 million, in line with expectations, a decrease of 13.4%, compared to €37.8 million in the third quarter 2011**

**Consolidated gross margin (41.1%) in line with that of the third quarter 2011, thanks to a more favorable product mix**

**Consolidated gross profit equal to €13.4 million, decreasing consistently with the trend of revenues, compared to €15.6 million in the third quarter 2011 (-13.6%)**

**Consolidated EBITDA of the quarter equal to €4.9 million (15%), down when compared to €7.4 million (19.5%) in the third quarter 2011**

**Consolidated operating income of the quarter equal to €2.5 million (7.7% of revenues) compared to €4.5 million in the third quarter 2011 (11.9%)**

**Consolidated net income equal to €0.4 million compared to €1.5 million in the third quarter 2011**

**Consolidated net financial position negative and equal to -€20.7 million as of September 30, 2012, substantially unchanged compared to -€19.4 million as of June 30, 2012.**

The Board of Directors of SAES Getters S.p.A., gathered today in Lainate (MI), approved the Group's consolidated results for the third quarter of 2012 (July 1 – September 30).

“The results of the quarter were in line with our expectations, influenced by a significant decrease in revenues, concentrated, in the last quarter, particularly in the semiconductors sector. In addition, the international economic environment has affected the businesses more related to the macroeconomic cycle, such as those of industrial lamps and of products for the defense market” Eng. **Massimo della Porta**, Chairman of SAES Getters S.p.A. said. “There is a great satisfaction with the significant growth driven by the new products introduced in the market for vacuum systems and in the field of shape memory alloys, both for medical applications and for those intended for industrial sectors: the contribution of joint venture Actuator Solutions has been relevant to the latter”.

In the third quarter of 2012, the SAES Getters Group achieved **consolidated net revenues** equal to €32.7 million, down by 13.4% compared to €37.8 million achieved in the corresponding period of the previous year. The **exchange rate effect** was positive and equal to 8.3%. With reference to revenues, the scope of consolidation was unchanged compared to 2011.

In this quarter, **consolidated gross profit** was equal to €13.4 million, compared to €15.6 million in the third quarter of 2011. The **gross margin** (41.1%), as a percentage of revenues, was unchanged from the third quarter of 2011 (41.2%).

In the third quarter of 2012, **consolidated operating income** was equal to €2.5 million, compared to €4.5 million in the corresponding quarter of 2011 (the operating margin decreased from 11.9% in the third quarter of 2011 to 7.7%).

**Consolidated income before taxes** was equal to €1.8 million compared to €3.9 million in the third quarter of 2011.

**Consolidated net income** was equal to €0.4 million, compared to €1.5 million in the corresponding quarter of 2011.

**Consolidated EBITDA**<sup>1</sup> in the third quarter of 2012 amounted to €4.9 million, down when compared to €7.4 million in the third quarter of 2011. As a percentage of revenues, EBITDA was equal to 15.0%, compared to 19.5% in the third quarter of the previous year.

For further details, please see the following sessions of this press release.

#### **Other significant events occurred in the third quarter of 2012**

Please note that on July 12, 2012, it has been finalized the payment of an amount of €500 thousand to acquire 20% of the shares of Memry GmbH, as provided by the agreement signed on June 27, 2012 with Dr. Matthias Mertmann, founder and current Managing Director of Memry GmbH, for the acquisition, in two subsequent tranches, of the entire share capital of the company by SAES Getters S.p.A.

#### **Reclassifications of the income statement as at September 30, 2011**

Please note that during the fiscal year 2012, following their transfer to production:

- revenues and costs related to dispensable dryers and to alkaline metal dispensers for OLED displays have been transferred from the Business Development Unit to the Information Displays Business Unit (Organic Light Emitting Diodes Business);
- similarly, revenues and costs of getter sealants for photovoltaic modules and of sophisticated getters for energy storage devices have been transferred from the Business Development Unit to the Industrial Applications Business Unit (Renewable Energies Business).

2011 figures were subject to the same reclassifications in order to enable a homogeneous comparison with 2012.

SAES Getters will hold a conference call today at **15:30 CET**.

The dial-in numbers are as follows:

Italy: +39 02 802 09 11

UK: +44 1212 818004

USA: +1 718 705 8796

---

<sup>1</sup> EBITDA is not deemed a measure of performance under International Financial Reporting Standards (IFRS) and must not be considered as an alternative indicator of the Group's results. However, we believe that EBITDA is an important parameter for measuring the Group's performance. Since the calculation of EBITDA is not regulated by applicable accounting standards, the method applied by the Group may not be homogeneous with methods adopted by other groups. EBITDA is defined as "earnings before interests, taxes, depreciation and amortization".

The presentation will be available at [www.saesgetters.com](http://www.saesgetters.com), Investor Relations section, Presentations. Interested parties are invited to call a few minutes before the beginning of the conference call.

The conference call will be available for its listening for the following 24 hours:

Italy: +39 02 72495

UK: +44 1 212 818005

USA: +1 718 705 8797

Access Code: 762#

### **Industrial Applications Business Unit**

**Consolidated revenues** of the Industrial Applications Business Unit were equal to €20.2 million in the third quarter of 2012, showing a decrease compared to €26.7 million in the third quarter of 2011 (-24.1%). The trend of the euro against the main foreign currencies resulted in a positive exchange rate effect equal to 6.8%.

The Vacuum Systems and Thermal Insulation business recorded a significant increase in sales (+35.8%) compared to the third quarter of 2011, thanks to the introduction of new pumps for vacuum systems, smaller in size than the products previously available and than those of competitors, that already in the first half of the year had enabled the Group to expand its presence on the market.

Also the renewable energies business is significantly growing, despite the still low absolute figures, affected by the reduction of public incentives. In this area SAES is strengthening its position thanks to the shift in production of innovative applications, already qualified with some important customers.

On the other hand, please note the strong decrease in the field of gas purification (Semiconductors Business), showing a significant reduction compared to the first half of this year, in line with the already mentioned expectations of a slowdown of the economic cycle of some of the major markets of our customers.

The decrease of sales in the other business segments is mainly due to the worsening of the macroeconomic situation and to a slowdown in public investments (mainly in the research and defense sectors).

In the third quarter of 2012, the Lamps Business recorded revenues of €2.5 million, down by 15.1% compared to €2.9 million in the third quarter of 2011. The exchange rate effect was positive and equal to 5.1%. The decrease in revenues was mainly due to the global economic slowdown, considering the general pro-cyclical trend of this industry.

In the Electronic Devices Business sales amounted to €5.2 million, down by 7.5% compared to €5.7 million in the corresponding period of 2011 (the exchange rate effect was +6.9%); the sales of the quarter were affected by the reduction in public investments in the research and defense sectors, especially in the U.S. market, only partially offset by the positive trend of getters and metal dispensers for medical imaging. We also confirm the upward trend in the sales of getter solutions, produced directly by the Group, for MEMS devices.

The Vacuum Systems and Thermal Insulation Business achieved sales equal to €3.5 million, up by 35.8% (the exchange rate effect was +10.1%), compared to €2.6 million in the third quarter of 2011.

This increase is due to the aforementioned introduction of new pumps for vacuum systems that have been particularly successful in the field of scientific applications.

Sales of the Semiconductors Business (gas purification) were equal to €8.9 million in the third quarter of 2012, down by 42.5% compared to €15.5 million in the third quarter of 2011. The exchange rate effect was positive and equal to 6.6%. As already mentioned, these figures confirm the expectations regarding the contraction of end markets, which showed itself with greater intensity in the last quarter compared to the first months of the year.

Sales of the Renewable Energies Business were equal to €0.1 million, compared to €25 thousand in the third quarter of the previous year. The exchange rate effect was equal to 4.8%. In this business, SAES is placed in a growing market niche, thanks to the introduction of new products that have been qualified and received very positive feedback by some major players.

**Gross profit** of the Industrial Applications Business Unit was equal to €9 million in the third quarter of 2012, compared to €2.1 million in the third quarter of 2011. As a percentage of revenues, the gross margin was equal to 44.5%, down when compared to 45.3% in the corresponding period of 2011, mainly due to the sales mix.

**Operating income** of the Industrial Applications Business Unit amounted to €5.7 million in the third quarter of 2012 (27.9% of revenues), compared to €8.1 million in the third quarter of 2011 (30.5% of revenues). This trend is related to the decrease in gross profit, only partially offset by lower operating expenses.

#### **Shape Memory Alloys (SMA) Business Unit**

In the third quarter of 2012, **consolidated revenues** of the Business Unit dedicated to shape memory alloys were equal to €1.8 million, up by 18.6% compared to €10 million in 2011. The exchange rate effect was positive and equal to 12.6%. The growth was mainly due to the enlargement both of the products portfolio and of the customer base in the medical field, made possible by the investments in research and development of the last few years.

**Gross profit** of the Shape Memory Alloys Business Unit was equal to €4.3 million in the third quarter of 2012, up by 27.8% compared to €3.4 million in the third quarter of 2011. As a percentage of revenues, the gross margin was equal to 36.5% in the third quarter of 2012, compared to 33.8% in the corresponding period of 2011, mainly due to the higher comparative weight of products characterized by a lower absorption of direct labor as well as the reduction of plant related fixed costs resulting from the rationalization of the production structure implemented in 2011.

**Operating income** of the Shape Memory Alloys Business Unit was equal to €1.8 million in the third quarter of 2012 (15.6% of revenues), showing a strong increase (+59.5%) compared to an operating income of €1.2 million in the third quarter of 2011 (11.6% of revenues).

#### **Information Displays Business Unit**

In the third quarter of 2012, **consolidated revenues** of the Information Displays Business Unit were equal to €0.7 million, down when compared to €1.2 million in the corresponding period of 2011. The exchange rate effect was positive and equal to 5.8%. The negative trend in sales reflects the often

mentioned structural and irreversible decline both in the business of fluorescent lamps for the backlighting of liquid crystal displays (LCDs) and in that of cathode ray tubes (CRTs). Please also note that the international weakness of the economy has caused a slowdown in the investments made in the OLED (Organic Light Emitting Diodes) business by the major TV manufacturers in Asia, for which SAES is an important technological partner; in fact, the company continues the supply of products for the pilot lines. The delay in the large scale introduction of OLED TVs has resulted in the maintaining of the turnover of this sector at levels typical of a business still at an early stage (€0.2 million in the quarter).

Sales of the Liquid Crystal Displays Business were equal to €0.1 million in the third quarter of 2012, compared to €0.4 million in the corresponding quarter of 2011 (-65.3%). The currency trend led to a positive exchange rate effect equal to 4.1%.

The Cathode Ray Tubes Business achieved sales equal to €0.3 million, compared to €0.5 million in the corresponding period of 2011 (-34.1%). The positive exchange rate effect was equal to 7.6%.

The Organic Light Emitting Diodes Business achieved sales equal to €0.2 million, compared to €0.3 million in the third quarter of 2011 (-25.6%). The currency trend led to a positive exchange rate effect equal to 5%.

The Information Displays Business Unit ended the third quarter of 2012 with a positive **gross profit** (€0.2 million, in line with the third quarter of the previous year). The gross margin increased to 29.6% compared to 15.2% of the previous year, due both to the greater comparative weight of sales in the OLED Business and to the consolidation of the savings deriving from the rationalization of the LCD production facilities, completed with the shutdown of the plant located in South Korea.

The **operating income** of the Information Displays Business Unit was negative and amounted to -€1.2 million in the third quarter of 2012 compared to -€1.1 million in the third quarter of 2011, due to operating expenses, in particular research and development expenses related to the OLED business, not yet balanced by a sufficient volume of sales.

### **Business Development Unit & Corporate Costs**

The Business Development Unit, after the reclassification of the revenues related to components for OLED and to getter solutions for photovoltaic panels, now classified in the Information Displays Business Unit and in the Industrial Applications Business Unit respectively, includes projects under development. Following this reclassification, this business unit did not essentially produce any revenues.

The **operating income** of the Business Development Unit & Corporate Costs (negative and equal to -€3.8 million in the third quarter of 2012 compared to -€3.7 million in the previous year) includes the costs that cannot be directly attributed or reasonably allocated to any business sector but that refer to the Group as a whole.

**Total consolidated gross profit** was equal to €3.4 million in the third quarter of 2012, down by 13.6% compared to €5.6 million in the corresponding quarter of 2011. The gross margin was equal to 41.1% in the third quarter of 2012, substantially unchanged from the third quarter of 2011.

**Total consolidated operating expenses** were equal to €1.7 million, showing a decrease (-2.6%) compared to €2 million in the third quarter of 2011, despite the unfavorable exchange rate effect, demonstrating the continued effort of the Group to control costs. The increase in research and development expenses (+1.4%), related to the Group's commitment in the development of new products, has been completely absorbed by the reduction in selling expenses (-8.9%) and in general and administrative expenses (-1.2%).

During this quarter, the balance of **other net income (expenses)** was positive and equal to €0.7 million, compared to €0.9 million in the third quarter of 2011. This figure includes the proceeds of the royalties generated by the licensing of the thin film getter technology for MEMS of new generation.

**Consolidated operating income** of this quarter amounted to €2.5 million, compared to €4.5 million in the corresponding period of the previous year (-44.2%). As a percentage of revenues, the operating margin was 7.7%, compared to 11, 9% in 2011.

The decrease in the operating income was primarily due to the decrease in gross profit resulting from the decline in revenues, despite the containment of operating expenses.

In this quarter, **consolidated EBITDA** was equal to €4.9 million, compared to €7.4 million in the corresponding period of 2011. As a percentage of revenues, EBITDA was equal to 15.0%, showing a decrease compared to the corresponding quarter of 2011 (19.5%).

The net balance of **financial income (expenses)** was negative and equal to -€0.7 million (-€0.5 million in the corresponding period of 2011). This worsening compared to the previous year is mainly due to the evaluation of the shareholding in the joint venture Actuator Solutions GmbH with the equity method (-€0.3 million euro in 2012, compared to -€0.1 million in 2011).

The **sum of the exchange rate differences** recorded a positive balance of €3 thousand in the third quarter of 2012 (compared to a negative balance of €0.2 million in the corresponding period of 2011).

**Income before taxes** was positive and equal to €1.8 million, compared to €3.9 million in the third quarter of 2011.

**Income taxes** of the quarter were equal to €1.4 million, compared to €2.3 million in the corresponding period of the previous year. The tax rate for the third quarter of 2012, equal to 76.6%, has been adversely affected, compared to the first half of the year, by the geographical distribution of the taxable income of the companies of the Group, as well as, with respect to some U.S. subsidiaries, by the depletion of some one-off tax benefits recorded in the first half of the year.

**Consolidated net income** of the third quarter of 2012 amounted to €0.4 million (1.3% of consolidated revenues), compared to €1.5 million (4.0% of consolidated revenues) in the third quarter of 2011.

The **consolidated net financial position** as of September 30, 2012 was negative and equal to -€20.7 million (cash equal to €24.3 million and net financial liabilities equal to €45 million), compared to a negative net financial position of -€19.4 million as of June 30, 2012 (cash equal to €28.4 million and net financial liabilities equal to €47.8 million). Despite the contraction in revenues as a result of lower sales, especially for the U.S. companies, the net financial position has remained substantially stable in this quarter. Actually, please take into account some negative impacts occurred during the period (higher contributions paid by the Italian companies of the Group following an additional monthly payment, payment of taxes by some U.S. companies).

**January - September 2012**

**Consolidated revenues** in the first nine months of 2012 were equal to €10.3 million, down by 3.2% compared to €13.8 million in the corresponding period of 2011. The currency trend has led to a positive exchange rate effect equal to 7.4%.

Sales of the Industrial Applications Business Unit amounted to €71 million, down by 12.6% compared to €81.3 million in the first nine months of 2011 (positive exchange rate effect equal to 6.3%). The Shape Memory Alloys Business Unit ended the first nine months of 2012 with consolidated sales equal to €36.7 million, with an increase of 25.9% compared to €29.2 million in the first nine months of 2011 (positive exchange rate effect equal to 10.5%). There was a structural decline in the Information Displays Business Unit, that in the first nine months of this year recorded sales equal to €2.5 million, compared to €3.4 million in the corresponding period of 2011, with a positive exchange rate effect equal to 6.1%.

**Consolidated gross profit** amounted to €46.2 million in the first nine months of 2012, substantially unchanged compared to the corresponding period of 2011 (€46.1 million). The consolidated gross margin on revenues was equal to 41.9%.

In the first nine months of 2012, **operating expenses** amounted to €38.1 million, respectively divided into €0.8 million of R&D costs, €10 million of selling expenses and €17.3 million of G&A expenses. In the first nine months of 2011, operating expenses amounted to €37.1 million; excluding the unfavorable exchange rate effect (higher costs for 1.3 million euro, +3.6%) there was a total decrease of -€0.3 million, equal to -0.8%. Compared to 2011, there was an increase in research and development expenses (+€0.5 million, equal to 4.8%, at comparable exchange rates), related to the increase of the staff of the Parent Company involved in research activities, while selling expenses decreased (-€0.7 million, down by 7.0%, excluding the exchange rate effect), mainly due to lower commissions resulting from the decline in the sales of purifiers. General and administrative expenses were substantially unchanged (-0.3%) at comparable exchange rates.

**Consolidated operating income** amounted to €10.8 million in the first nine months of 2012 (9.8% of consolidated revenues) compared to €1.9 million in the corresponding period of the previous year (10.5% of consolidated revenues).

**Consolidated EBITDA** amounted to €19 million in the first nine months of 2012 (17.2% of revenues) compared to €20.7 million in the same period of 2011 (18.2% of sales).

**Income before taxes** was equal to €8.6 million in the first nine months of 2012 (compared to an income before taxes of €10.6 million in the corresponding period of 2011).

**Income taxes** amounted to €4.7 million in the first nine months of 2012, compared to €6.4 million in the corresponding period of 2011. The tax rate decreased from 59.9% to 54.8% thanks to the recognition by the Parent Company of deferred taxes on the fiscal losses realized during the year (in 2011, these deferred taxes were recognized only at the end of the fiscal year).

**Consolidated net income** was equal to €4 million in the first nine months of 2012, down by 12.7% compared to €4.6 million in the corresponding period of the previous year.

In the first nine months of 2012 net income per share was equal to €0.1748 per ordinary share and €0.1916 per savings share (compared to €0.2011 per ordinary share and €0.2179 per share savings in the first nine months of 2011).

### **Actuator Solutions GmbH**

As specified in the Financial Statements 2011, SAES Group evaluates its holdings in joint ventures with the equity method.

With the aim of more information transparency, please note that the joint venture Actuator Solutions GmbH, in the first nine months of 2012, recorded sales equal to €4.2 million in the field of SMA actuators for the automotive market.

The net loss of the joint venture was -€1.4 million, due to the costs of research and development activities related to the various industrial sectors in which the company will sell its devices.

The share pertaining to the Group amounted to -€0.7 million, of which -€0.3 million recorded in the third quarter of 2012, as mentioned above.

### **Events occurred after the end of the quarter**

No significant events occurred after the end of the third quarter of 2012.

### **Business performance outlook**

The trend of the last quarter of 2012 is expected to be in line with the quarter just ended.

### **Approval of Consob regulatory simplification process**

Please note that the Board of Directors has approved, pursuant to Art. 3 of Consob resolution no.18079/2012, to adhere, starting from today, to the opt-out provisions as envisaged by Art. no.70, paragraph 8, and no.71, paragraph 1-*bis* of Consob Regulation related to Issuer Companies, and it therefore avails itself of the right of making exceptions to the obligations to publish information documents required in connection with significant mergers, spin-offs and capital increases by contributions in kind, acquisitions and disposals.

Please note that these figures are taken from the Interim Management Report for the third quarter of 2012, not subject to audit.

This document will be published on the Company's website <http://www.saesgetters.com/default.aspx?idPage=453> and sent to Consob by today.

### **SAES Getters**

*A pioneer in the development of getter technology, the SAES® Getters Group is the world leader in a variety of scientific and industrial applications where stringent vacuum conditions or ultra-pure gases are required. In more than 70 years of activity, the Group's getter solutions have been supporting innovation in the information display and lamp industries, in sophisticated high vacuum systems and in vacuum thermal insulation, in technologies spanning from large vacuum power tubes to miniaturized silicon-based microelectronic and micromechanical devices. The Group also holds a leading position in ultra pure gas refinement for the semiconductor and other high-tech markets.*

*Starting in 2004, by leveraging the core competencies in special metallurgy and in the materials science, the SAES Getters Group has expanded its business into the advanced material markets, in particular the market of shape memory alloys, a family of materials characterized by super elasticity and by the property of assuming predefined forms when subjected to heat treatment. These special alloys, which today are mainly applied in the biomedical sector, are also perfectly suited to the realization of actuator devices for the industrial sector (domotics, white goods industry, consumer electronics and automotive sector).*

*More recently, SAES has expanded its business by developing components whose getter functions, traditionally obtained from the exploitation of the special features of some metals, are instead generated by chemical processes. These new products are used in the OLED promising sectors (Organic Light Emitting Diodes), both for displays and for lighting and in the photovoltaic one. Thanks to these new developments, SAES is evolving, adding to its competencies in the field of special metallurgy also those of organic chemicals.*

*A total production capacity distributed in eleven facilities across 3 continents, a worldwide-based sales & service network and about 1.000 employees allow the Group to combine multicultural skills and expertise to form a truly global enterprise.*

*SAES Getters is headquartered in the Milan area (Italy).*

*SAES Getters is listed on the Italian Stock Exchange Market, STAR segment, since 1986.*

*More information on the SAES Getters Group is available in the website [www.saesgetters.com](http://www.saesgetters.com).*
