

**PRESS RELEASE**

Milan, December 22, 2022

**Merger of SAES International S.r.l. into SAES Getters S.p.A. – implementation of the merger**

Following the press release issued on October 24, 2022, the Company informs that, as of today, the merger by incorporation of the wholly owned subsidiary SAES International S.r.l. (*formerly* SAES Getters International Luxembourg S.A.) into SAES Getters S.p.A was implemented, through the completion, signature and filing of the merger agreement within the Italian Business Register, by the two companies participating into the merger.

The merger will produce legal effects at the end of the accounting day of December 30, 2022. For fiscal and accounting purposes only, the merger operation will be backdated as at January 1, 2022.

**SAES Group**

*A pioneer in the development of getter technology, the company SAES Getters S.p.A., together with its subsidiaries (hereinafter "SAES® Group" or "SAES" or "Group"), is a world leader in a variety of scientific and industrial applications that require high vacuum conditions. In more than 80 years of activity, the Group's getter solutions have been supporting technological innovation in the information display and lamp industries, in sophisticated high vacuum systems and in vacuum thermal insulation, in technologies spanning from large vacuum power tubes to miniaturized devices such as silicon-based microelectronic and micromechanical systems (MEMS).*

*Starting in 2004, by leveraging the core competencies in special metallurgy and in the materials science, the SAES Group has expanded its business into the advanced material markets, in particular the market of shape memory alloys, a family of materials characterized by super elasticity and by the property of assuming predefined forms when subjected to heat treatment. These special alloys, which today are mainly applied in the biomedical sector, are also perfectly suited to the realization of actuator devices for the industrial sector (domotics, white goods industry, consumer electronics, healthcare, automotive and luxury sector).*

*More recently, SAES has expanded its business by developing a technological platform that integrates getter materials in a polymeric matrix. These products, initially developed for OLED displays, are currently used in new application sectors, among which optoelectronics, photonics and the mobile sector above all. Among the new applications, the advanced packaging is a significantly strategic one, in which SAES is offering a range of new products for the food sustainable packaging and competes with recyclable and compostable solutions.*

*A total production capacity distributed in eleven facilities, a worldwide-based sale & technical service network and almost 1,200 employees allow the Group to combine multi-cultural skills and experience and to be a truly global enterprise.*

*SAES Group's headquarters are based in Milan.*

*SAES Getters S.p.A. is listed on the Italian Stock Exchange Market, Euronext STAR segment, since 1986.*

*More information on the SAES Group is available in the website [www.saesgroup.com](http://www.saesgroup.com).*
