3. UNITARY FEE OFFERED AND TOTAL EQUIVALENT VALUE OF SAES GETTERS OFFER

The Offeror will pay at the Payment Date (as defined below) a fee amounting to Euro 23.00 for each Share (after the 2018 dividend) taking up the Offer and purchased (the "Fee").

The Fee is understood to be net of stamp duty, if due, and fees, commissions and costs relating to the Offer, which will be borne exclusively by the Offeror. The substitute tax on capital gains indicated in Italian Legislative Decree no. 461 of 1997, where due, is borne by those taking up the Offer.

On 13 March 2019 the Company announced that the dividend proposed by the Board of Directors to the Shareholders' Meeting called on 18 April 2019 – among other things - to approve the financial statements at 31 December 2018 is equal to Euro 0.70 per Share and Euro 0.855175 per savings

share and the payment will be carried out on 2 May 2019, before the beginning of the Offer (as below explained).

The Fee incorporates a premium of 8.4% with respect to the official price of the Company Shares registered on 13 February 2019 (open trading day prior to the announcement date of the operation to the market), as well as a premium of 15.0%, 20.2%, 19.2% and 10.6% with respect to the weighted average of the official prices *cum* 2018 dividend of the Shares respectively in the periods at 1 month, 3 months, 6 months and 12 months prior to 13 February 2019, as illustrated in more detail in the table below. Merely for illustrative purposes, it also includes the implicit premium in the Fee with respect to the weighted average of the official prices after the 2018 dividend (*i.e.* adjusted for the payment proposal of the dividend amounting to Euro 0.70 per Share as proposed by the Board of Directors of the Issuer and set for payment as of 2 May 2019) in the periods at 1 month, 3 months, 6 months and 12 months prior to 13 February 2019.

*1) calculated for each time period considered by deducting the 0.70 sum (equal to the dividend proposed by the Board of Directors of the Issuer) from the average weighted average of official prices *cum* dividend.*

The total equivalent value for the no. 3,900,000 Shares subject to the Offer amounts to Euro 89.7 million (the "**Maximum Outlay**").

The payment of the Fee in favour of the entities that accept the Offer, against the simultaneous transfer of ownership of the Shares taken up in favour of the Offeror, will occur on the fifth open trading day (the "**Payment Date**") after the closing date of the Take-Up Period agreed with Borsa Italiana (the "**Take-Up Period**"), subject to any extensions or modifications of the Offer that may occur in conformity with existing provisions of law or regulations.

4. METHODS OF FINANCING THE OFFER

The payment of the Fee will be made in cash at the Payment Date.

The Offeror declares, in accordance with Article 37-*bis* of the Issuers' Regulation, to be in the condition to be able to cover in full every payment commitment of the Fee.

The Company, also to optimize and make the financial structure more efficient, can also procure the resources needed, in whole or in part, by mean of a medium-long term credit facility for a maximum amount equal to the Maximum Outlay (“the Facility”) currently being under negotiation with a primary bank.

5. DURATION OF THE OFFER

The Take Up Period of the Offer will be agreed with Borsa Italiana to be between a minimum of 15 and a maximum of 40 days on which the stock exchange is open for business, pursuant to Article 40 par 2.b of the Issuers’ Regulation, subject to any extension to be communicated by the Offeror in accordance with legal and regulatory provisions in force.

6. MOTIVATIONS FOR THE OFFER

The Company - having assessed different potential uses of resources available , even following the outcome of the sale of the gas purification business - believes that, also in view of the trend of stock exchange prices, the use of part of the available resources for the purchase of Shares represents an investment opportunity advantageous to the Company and its shareholders.

The operation will improve the profitability by unit of capital used. The reduction in the number of outstanding Shares will, in fact, determine, to the benefit of all shareholders: (i) an increase of the earning per share, with the same financial year profit, and (ii) an increase of the dividend per share, with the same overall amount of dividends.

The operation will also increase the efficiency of the Company's financial structure, preserving at the same time a solid capital structure to support growth for internal and external lines, if the opportunity arose in future, and maintaining at the same time a high level of free float, in line with listing requirements on the STAR segment.

At the outcome of the Offer, the Company would also obtain a congruous number of Shares representing a medium to long-term investment in the Company, which can even be used as a guarantee for loans in favour of the Company or other group companies, on the occasion of any extraordinary operations and/or the development of alliances coherent with the group's strategic lines. However, until opportunities for use arise, the Company intends to maintain in the portfolio the treasury Shares purchased at the outcome of the Offer, also in order to consolidate the positive effects in relation to increasing the earnings and dividend per share deriving from the purchase. For that reason, the Shareholders' Meeting of 18 March 2019 has not been asked for authorisation to dispose of the purchased treasury shares.

In addition, the Offer allows the ordinary shareholders intending to take it up to benefit from the opportunity of liquidating - at least in part - their investment at a price that incorporates a premium with respect to the average of the Share prices of recent months.

7. INTENTION TO WITHDRAW FROM TRADING THE FINANCIAL INSTRUMENTS SUBJECT TO THE OFFER, PURCHASE OBLIGATION AND PURCHASE RIGHT

The Offer consists of a partial voluntary public offering promoted in accordance with Articles 102 et seq. of the Consolidated Finance Law and it is not aimed at - and may not determine - the withdrawal from listing of the Issuer's ordinary shares from the MTA (*delisting*).

In view of the nature and subject of the Offer, there are no presuppositions to apply the purchase obligation in accordance with Art. 108 of the Consolidated Finance Law or the purchase right in accordance with Art. 111 of the Consolidated Finance Law.

8. NON-APPLICABILITY OF THE OBLIGATION OF INCREMENTAL (CONSOLIDATION) OFFER PURSUANT TO ARTICLES 106, PARAGRAPH 3, LETTER B) OF THE CONSOLIDATED FINANCE LAW AND 46 OF THE ISSUERS' REGULATION

If the Offer is fully taken up, SAES Getters will hold 3,900,000 treasury Shares, corresponding to 17.7% of the Issuer's capital.

In general, according to Art. 44-*bis*, paragraph 1 of the Issuers' Regulation, according the treasury shares held by the Company, even indirectly, are excluded from the share capital on which the relevant investment is calculated in accordance with Art. 106, paragraphs 1, 1-*bis*, 1-*ter* and 3, letter b) of the Consolidated Finance Law on public offerings.

However, in accordance with Art. 44-*bis*, paragraph 2 of the Issuers' Regulation, the aforementioned provision does not apply if the exceeding of the threshold, indicated in Art. 106, paragraphs 1, 1-*bis*, 1-*ter* and 3, letter b) of the Consolidated Finance Law, follows purchases of treasury shares, carried out, even indirectly, by the Company in execution of a resolution that has been approved even with the favourable vote of the majority of Issuer's shareholders, present at the shareholders' meeting, different from the shareholder or shareholders that hold, even jointly, the majority shareholding, even relative, provided that it is above 10% (known as *whitewash*).

In application of that whitewash mechanism, since the authorisation proposal to purchase treasury shares was approved by the Shareholders' Meeting with the majorities provided by the aforementioned Art. 44-*bis*, paragraph 2 of the Issuers' Regulation, the treasury Shares purchased by the Company in execution of that authorisation resolution will not be excluded from the share capital for calculating the relevant thresholds for the purposes of Art. 106, paragraph 3 of the Consolidated Finance Law and Art. 46 of the Issuers' Regulation.

In that regard, it is noted that the relative majority shareholder SGGH holds directly no. 5,422,023 Shares, representing 36.96% of the Issuer's capital made of Shares and, following the increase in voting rights, 40.61% of the voting rights that can be exercised in the Shareholders' Meeting.

Therefore, even if the Offer is fully taken up and no share is taken up by SGGH (see, moreover, what was declared by SGGH and reported in the "Parent Company" paragraph), by virtue of the

Offer, no obligation of incremental (or consolidation) offer would arise for SGGH as a result of the Offer, in accordance with Art. 106, paragraph 3, letter b) of the Consolidated Finance Law and Art. 46 of the Issuers' Regulation.

9. CONDITIONS OF EFFECTIVENESS OF THE OFFER

The effectiveness of the Offer is subject (A) to the non-occurrence, by the first open trading day after the end of the Take-Up Period, of (i) extraordinary events or situations at national and/or international level involving serious changes to the political, financial, economic, currency or market situation that have substantially prejudicial effects on the Offer, on the business conditions and/or on the capital, economic and/or financial conditions of SAES Getters and/or on other companies of the SAES Group, or of (ii) acts, facts, circumstances, events or situations such to determine a prejudice that significantly affects the Offer, the business conditions and/or the capital, economic or financial conditions of SAES Getters and/or of other companies of the SAES Group, as recorded by the most recent accounting document approved by the Issuer, and/or (B) the lack of adoption and/or publication, by the first open trading day after the end of the Take-Up Period, by competent institutions, entities or authorities, of legislative, administrative (therein including public offering obligations in accordance with Articles 106 et seq. of the Consolidated Finance Law) or judicial acts or legislative measures that preclude, limit or render more onerous, in whole or in part, even transitionally, the possibility for SAES Getters and/or the SAES Group to finalise the Offer ((A) and (B), jointly, the "**Offer Conditions**").

The Offeror may waive, or modify in the terms, at any time and at its sole discretion, in whole or in part, the Offer Conditions within the limits and according to the methods provided by Article 43 of the Issues' Regulation.

The Offer is not conditional upon achieving a minimum quantity of take-ups.

It is scheduled for the Offer to commence, and in any case it may be finalised, only after the approval by the Shareholders' Meeting of the financial statements at 31 December 2018 recording sufficient distributable profits and/or available reserves. In that regard, the Company's Board of Directors on 13 March 2019 approved the draft financial statements at 31 December 2018 recording sufficient distributable profits and available reserves (in particular, those draft financial statements record a financial year distributable profit for Euro 258,2 million) and that the Shareholders' Meeting for approval of the financial statements at 31 December 2018 has been convened for 18 April 2019.
