

Massimo Della Porta

Born in Pontremoli, Massa-Carrara on September 8, 1960

saes

Degree in Mechanical Engineering from the Polytechnic

University of Rome in 1989. His two-year experimental thesis, “Production and Control of Amorphous Powders Based on Fe Nd B,” was prepared at ENEA, Rome, achieving a score of 107/110.

He completed mini-master courses at Bocconi University in Strategy and Planning, Marketing, and Business Management.

PROFESSIONAL ACTIVITY

In April 1989, he began his career at one of the SAES Getters Group’s companies, SAES Metallurgy in Avezzano, with duties as a researcher and the specific task of establishing an applied research laboratory at the subsidiary in Avezzano.

In 1991, after working for about a year on a project to improve manufacturing processes, he took over the production management at SAES Metallurgy SpA.

In 1992, he became the Technical Director of the subsidiaries in Avezzano and began coordinating group-level projects:

- Design and construction of the SAES Advanced Technologies plant;
- Expansion of the Korean plant in Chinchon;
- Expansion of the SAES Pure Gas facility in California;
- Responsible for transferring some production lines from Lainate to Avezzano;
- Project leader for various innovation projects.

In 1996, he moved to Milan to take on the role of Group Innovation Manager at the parent company SAES Getters S.p.A., while simultaneously maintaining his previous responsibilities at the production sites in Avezzano.

In 1997, he was appointed Vice President and CEO of SAES Getters S.p.A. That same year, he was named Chief Technology & Innovation Officer of the Group and also took over the group-level responsibility for Information Systems.

In 1998, he launched and coordinated a global project to create a corporate intranet, connecting all the group’s subsidiaries and developing applications to support local and group management activities.

In 2003, he was reconfirmed as Vice President and CEO, Chief Technology & Innovation Officer of the Group and was appointed Group Chief Executive Officer.

In 2009, he was appointed President and reconfirmed as Group Chief Executive Officer and Chief Technology & Innovation Officer of the Group.

From 2012 to 2023, he was reconfirmed as President and Group Chief Executive

Officer and Chief Technology & Innovation Officer of the Group.

From 2023, in addition to his roles as President and Group Chief Executive Officer, he continues as the Group's Chief Technology Officer.

He is a member of the Board of Directors of various companies within the SAES Getters Group. Specifically, he is:

- Director of SAES Nitinol S.r.l.;
- President of SAES Coated Films SpA;
- President of SAES Innovative Packaging S.r.l.;
- President of Cinel Scientific Instruments S.r.l.;
- President of SAES Rial Vacuum S.r.l.;
- Board member of Flexterra Inc;
- Board member of SAES Getters (Nanjing) Co. Ltd.;
- Member of the Supervisory Board of Actuator Solutions GmbH;
- Independent Director of Alto Partners SGR S.p.A. since December 2004;
- Director of MGM S.r.l., a real estate company;
- Sole Administrator of DP Holding S.r.l.

He is an inventor and/or co-inventor of alloys and products for which patents have been obtained.
